Closing Quotations Give No Idea of the Fluctuations.

NET GAINS ARE ALL SMALL

They However, Show Substantial Recovery from Low Point-Closing Was Firm, but Veyy Dull, and Near the Top Level.

(Ry Associated Press.)

NEW YORK, June 16.—A comparison of to-day's last prices with the last prices last night gives no idea of the wide fluctuations made. The principal speculative favorites this morning were from 1 to over 2 points lower than last night, and within a range running from a fraction to between 1 and 2 points of the low level touched on Wednesday last the low level touched on Wednesday last in many cases. The day's not gains, while generally small, therefore, represent a very substantial recovery from the low point of the day. But, when it was attempted to rush prices up late in the day to much above last night's level, pressure to sall was represed and prices. pressure to sell was renewed and prices again fell back. The closing, however, was firm, but very dull, and near the top level of the day. It was evident also that when prices approached last week's low level, buying of an investment char-acter again came into the street. The prospect indicated of a dull and sluggish acter again came into the street. The prospect indicated of a duil and slugglish market is viewed not without satisfaction in financial quarters generally. That the resources which have been accumulated by such a painful process of liquidations should be immediately put back into speculative use, with the needs of the coming autumn still to be met, is a course generally disapproved by bankers and those with large property interests. During the ealy decline to-day the suspense over the probable decision of the coal miners' convention was of important influences. The final action by the convention and the apparent improvement in feeling of the two sides to the controversy, which has resulted in the incident, is regarded with vast anxiety, expressed over the crop news during the early part of the day, but the weekly crop report and the reaction in wheat and cotton served to relieve this somewhat. Atchison was conspicuously weak and rumors of a possible reduction in the dividend continued to circulate. The payment of an installment of the subscription on the consols issue, calling for \$15.09,000 in the London market, added to the depression there, and was reflected here. Sterling exchange also ruled sitong with a threat of further gold experts. The reduction in price of copper weakened Amalgamated in the early gealings, but the later announcement of a further cut in the price of pig fron did not interrupt the later secovery of the market.

Wall Street Gossip.

Wall Street Gossip.

(Special to The Times-Dispatch.)

NEW YORK, June 16.—The opening of the stock market was weak in sympathy with the decline in London and the attitude of the professional element. The Well following were very bearish and renewed their heavy selling of the provious afternoon, while there seemed to be some Western pressure also. Specialists were very doubtful if the rally of the previous week had represented much more than short covering.

Baltimore and Ohlo was noticeably weaker, the realizing of stock bought on the improbable increased dividend rumors. Apart from this there seemed to be distinct pressure on all the Pennsylvania controlled properties, although Pennsylvania stock tipel acted rather veil on the encouraging subscription of the new stock.

WEAK IN FIRST HOUR:

The market was very weak in the first hour, but it was noticeable that there was some good professional covering on the declines. There was, however, long stock coming out, and London was selling rather freely. Floor trades were hearish, but thought the market was very professional and did not see much public liquidation.

EELLERS AND BUYERS:

Keech, Lowe & Co. sold about 5,000 shares around the room. The Waldort crowd sold atocks, but the Wall brokers were buying on the break. Frank Savin in particular taking about 10,000 shares of various stocks. Harris, Gates & Co. were moderate scilers. Keene brokers gare some support to the market, especially in United States Steel.

RALLY HELD INTO AFTERNOON:
The raily held into the early afternoon, although the market became rather dull. There was some investment buying, but not enough to make aerlous impression, and there did not seem to be much to put prices up after once the shorts had covered. Room traders were putting out stock again.

GOOD INVESTMENT BUYING:

GOOD INVESTMENT BUYING:
Some good buying, of which looked like an investment character, by brokers who have not been in the market to any great extent for a gournes of the descuring features of the days trading. The purchases of 5,000 St. Paul by E. and O. Randolph and the stock Reech, Lows & Co. took round the morn, said to be 35,000 shares in all, were considered to be of this character.

AMERICAN CAN:

AMERICAN CAN:

The outlook of the American Can Company has been somewhat improved by the recent rains throughout the East, where so much fruit used for canning purposes is grown. The drought which lasted for several weeks had the effect of casting a rather glocomany, for it was read that if the dry weather continued there would be a felling off in the demand for the cans, which would, of course, result in having an unfavorable effect upon the company serraings. While the prospects of the company have been improved, it is difficult to state at this time whether the company's output will be reduced as a result of damage to certain crops by the dry weather.

BLOSS-SHEFFIELD:

While there was espectation on the part of

SLOSS-SHEFFILD:
While there was expectation on the part of some people that the directors of the Sloss-Shef-led Steel and Iron Company would take definite action at their meeting on Monday in regard to starting dividends on the common stock, it was felt by others that the present would be an inpoportine time to begin them, not because the exertings do not justify it, but begause of the uncertain tone of the iron market.

The failure of the directors to declare a divi-

dend is strictly in line with the conservative petley that the management has been following in
conducting the affairs of the company.
It is expected that the from market will take
a definite turn in the near future. Indications
are that there will be considerable buying of pic
from during the next few weeks, which will
probably determine to a certain extent the
course which prices of from may take during.
President Maben, of the Slows-Shuffield Company, says the company is storing some of its
pig from at the present time, but he says that
he consumers stocks have been reduced to such
an extent that they will be chiged to buy from
Shuffield the from market develops more affects spot cotton market tace was tey much such a talona unchanged.
Futures were unsettled. The summer months opened at last evening slosing figures, but the new crop positions were to 6610 points lower. The new crop positions for the first wide and frequent. The market was rather a tame affair compared with the conditions of the past few days. The duliners was due to liquidation. Added to the weight of liquidation was a much more favorable map than has been sen for a long time in the cotten belt. The market was very quiet at the

The close was slightly under the best of the day, although at a substantial recovery from the lowest. The market was active till the shorts had covered and then became very dult Specialist did not believe there was much short interest, although there might be somewhere stock was privally borrowed.

DRY GOODS MARKET. DRY GOODS MARKET.

NEW YORK, June 16.—An advancing tendency has been noted in all sections of the dry goods market with a disposition on the part of buyers to hold off as long as possible in the hope that thus they will not put the market up against themselves. Manufacturers are taking a very determined stand against granting concessions. With mills closing down on account of lack of cotion they are obliged to refuse to weaken.

GAVE HIM TRIP TO HIS OLD HOME

John McLean, Man of All Work, Visits His Parents. Tent Services.

John McLean, aged about fifty years, 's the "all around man" at the Mcthodist Institute on East Main Street, Yesterday he came home after a trip to Glasgow, Scotland, where he had been to see his aged parents. John had been a wanderer for twenty years, and was fast going to ruln, when he drifted into the institute and was converted about three years ago. He is a faithful and industrious man, and is popular with the large corps of workers at the mission. The

corps of workers at the mission. The ticket to Scotland was given him chiefly by the ladies who are connected with the institute. The mission tent will be erected to-day in the lot of the Marshall-Straet School at Twentieth and Marshall Stroet. Services will be held from time to time until the arrival of the widely known evangelist, the Rev. L. W. Munhall, of Philadelphia, who will come here July 22d to hold a series of meetings, extending through three weeks. through three weeks.

Vestrymen Elected.

At a meeting held Monday night the following were elected vestrymen of the Church of the Holy Comforter: Dr. Edward McCarthy, Mr. William McKin Marriott, E. F. Rust, Mr. James D. Fatton, Mr. C. D. Smith, Dr. W. H. Gibbs, Mr. E. S. Rose and Mr. A. D. Wrenn.

To Natural Bridge.

The first opportunity of the season to visit Natural Bridge and the Peaks of Otter will be the excursion Saturday right. The trip also includes a stop at Lynchburg or the day can be spent at Clitton Forge. The train leaves the C. & O. Station Saturday night at 11 oclock and reaches the city on its return on Monday morning at 6 o'clock.

Bible Society.

The Board of Managers of the Bible Society of Virginia met Monday and transacted various matters of interest and importance. The Ray, D. J. Woods, of Blacksburg, was appointed agent for that place. A donation of Bibles was made to an Episcopal Mission Sunday-school in Northampton county and to a union Sunday-school in Newport News.

Committee Named.

President Turpin has named the committee on the part of the Board of Aldermen to act with a similar one from the Common Council and the Chamber of Commerce to urge the Clyde Line Staamship Company to restore its connection with Richmond. Mr. Turpin named Aldermen Cottroll and Satterfield.

Committee Meetings. The Committee on Health held a meeting last night and disposed of a considreable amount of routine work. A subcommittee was appointed to look into
the question of pasturing the teams dur-

HAVE GONE FOR NEW KING

Parliamentary Delegation to Notify Karageorgovitch.

SERVICE OF THANKSGIVING

Brilliant Assemblage Gathered and Nation Congratulated on Restoration of Dynasty of Noble Men-Belgrade Perfectly Calm.

(By Associated Press.)
BELGRADE, SERVIA, June 16.—Adeputation of the two chambers, comosed of four Senators and twenty Depu-

deputation of the two chambers, composed of four Senators and twenty Deputies, headed by the presidents of the two houses, left Belgrade by special train last night to inform King Peter of his election to the throne. The officers who have been appointed to attend the King went on the same train. The deputation is expected to return here with the King on Monday or Tuesday next.

The chamber met at 10 'clock this morning and adjourned for the purpose of going to the Cathedral, where a great thanksgiving service, including a to down, was celebrated.

The Ministers attended the service, which was carried out with all the stately eccemonial of the Greek Church. The Cathedral presented a pleturesque scene. The aged Marropolitan, in gorgeous vestments of purple and cloth of gold and with joweled miter, was surrounded by the bishops and priests of the Cathedral chapter. Half the congregation was composed of army officers in full uniform. The Ministers were dress suita and all their orders. The Metropolitan, in a brief address, congratulated the nation on the restoration of the Karageorgovitch dynasty, a dynasty which had included so many brave and noble men. While deploring the necessity for recent events, he thanked the army for what it had done and praised its behavior. The officers audily expressed their plensure at these remarks from the prolate, who concluded with invoking a blessing on King Peter and expressing the hope that under him Servia would enjoy peace and prosperity.

GUNS BOOM.

The town is perfectly calm and quiet is apparently assured.

Guns boomed frequently in henor of King Peter, the church bells rang merrilly, and simultaneously along the main street marched a funeral procession. Accompanied by all the panoply of the Greek Church, a regiment of soldiers, with its band, was carrying to the grave the remains of a young leutenant, to whom had been accorded the title of the "army's hero," a title which was gained as follows

as follows

The commandant of a division encamped in the envirous of Belgrade was surprised in the palace by the conspirators on the night's assassinations and managed to escape. He found a mounted orderly, took his horse and galloped to the encampment of his division to summon the regiments to the assistance of the King. Just before reaching the camp, the lieutenant who was burded today overtook the commandant, and in the sangulnary fight which ensued the commandant was mortally wounded. He died yesterday.

The new royal ciphers are reaching the military depots to-day and will be served out to the army before the arrival of King Peter.

The portraits of the late King Alexander are being removed from the walls of public offices and placed in lumber rooms.

Workmen were busy all day and night

of public offices and placed in lumber rooms.

Workmen were busy all day and night at the palace removing all signs of the tragedy and repairing the damages caused by flying bullets, preparatory to the installation of the new ruler.

It appears very unlikely that an official account of the crime will be published. The absence of all expression of regret among the educated classes is most striking and leads to the conclusion that either the assassnations were extremely popular or the Servinas are the most impassive people in the world. As a matter of fact, the whole country is governed by a few men, and in many cases the peasantry are ignorant of the cause of the change.
